DECO PRIME®

Real metal surfaces for automotive design

Give your automotive interior design a lasting, emotional metallic touch – with a stunningly brilliant colour coating. DECO PRIME® offers you a variety of structures and finishes, coated with translucent colour pigments, helping you create a unique, exclusive look.

The surfaces open a wide range of new options for your automotive interior design, with valuable additional features such as scratch resistance, anti-fingerprint and soft touch. They can be pre-treated with adhesion primers for bonding with various plastics (ABS, PVC etc.).

Care for the Environment

Conserving natural resources has been a part of our corporate philosophy ever since our company was founded in 1975. Today, Alanod is a climate-neutral, sustainably run company. Our cutting-edge post-combustion technology enables production of all of our materials without the need to use superfluous energy generally in exhaust cleaning. All our electricity comes from “100% green” sources.

Made in Germany

All of our DECO PRIME® materials are manufactured exclusively at our production sites in Germany and use no conflict materials.
